COVID-19 VACCINE INFORMATION AND DATA UPDATE

Although many people in the Barren River District have been vaccinated, the majority of the population remains unvaccinated. COVID-19 vaccines are safe and effective at preventing severe illness and death. Vaccination also reduces the risk of people spreading the virus. The COVID-19 vaccine teaches your body how to fight off the virus in case you become infected. If you are vaccinated and you do catch the virus, you are much less likely to be hospitalized.
